832-272-6067 || Houston, TX || nkizito57@gmail.com || [Linkedin](#) || [GitHub](#) || [Blog](#)

Software Engineer

Experienced Full Stack Web Developer with a background in software engineering and whose knowledge of programming languages include Ruby on Rails, JavaScript, React and Redux. As a developer, I am always looking to solve problems efficiently and creatively through code. My adaptability to change and strong skills in problem-solving, communication and collaboration helps move projects from conception to completion.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, Ruby on Rails, MySQL/NoSQL, Node.js, XML/JSON, RESTful Services, AJAX, MVC, ES6, Java

Frameworks: Bootstrap, Semantic UI, jQuery, React, Sinatra

Others: Photoshop, ACC, Video, Visual Studio Code, and Audio Editor, cPanel, Cloud 9, Heroku, WordPress, pgAdmin

TECHNICAL PROJECTS

ZapChat – Github: [Frontend](#) [Backend](#) || [Demo](#) || [Website](#)

An app that allows a user to create a chat with an image and leave comments.

- Formed React components that are functional, stateless, presentational and a class.
- Created 5 stateless components that receive props or state from the parent in this case the container.
- Built the backend using Ruby on Rails with the gems rack-cor, bcrypt, and PostgreSQL.
- Developed the frontend using HTML5, CSS3, and JavaScript and with frameworks React/Redux and thunk.

SimonSays – [Github](#) || [Demo](#) || [Website](#)

A game that requires a player to press the buttons that Simon picks.

- Created a game that runs on Object-Oriented classes.
- Used Ruby on Rails for the backend that follows the CRUD cycle and RESTful routing.
- Designed the frontend with JavaScript, HTML5, and CSS3.

Airlines – [Github](#) || [Demo](#)

An app where the user can log-in with Gmail or Facebook, search airline prices and buy tickets.

- Developed with the Object-Oriented language Ruby on Rails and styled with CSS3.
- Applied gems OminAuth, bcrypt, and rack-cor to assist with log-in features.
- Utilized Sqlite3 to persist data from greatest to lowest price during development.

WORK EXPERIENCE

Revature, Reston, VA

April 2017 - January 2019

Junior Software Engineer

- Provided maintenance for client's websites
- Solved website bugs by debugging and pinpointing the issue.
- Refactored legacy codes to help improve the efficiency of websites.

BoniStarDayHab, Pflugerville, TX

February 2016 - March 2016

Freelance Web Developer

- Developed the company's website with HTML5, CSS3, and JavaScript.
- Produced mobile-friendly web pages using Bootstrap and media queries.

EDUCATION

Flatiron School, Houston, TX

November 2019 - April 2020

Ruby on Rails, JavaScript, React and Redux immersive program

Texas Southern University, Houston, TX

August 2016

Bachelor of Science, Computer Engineering
